

Nancy,

05-04-2009

I am sure you will believe that I have been coerced into this decision but I assure you, that is not the case. I do acknowledge that some of your actions have been helpful relative to my personal finance and legal matters. I appreciate the work you have done in my home taking care of me personally and things around the house.

When you left Nancy I found blank Power of Attorney forms printed out by my computer. For the good that you have done for me in the past, I have to say that I am not comfortable with you in my home, now or in the future. I do not trust that your actions are always representative of my true wishes and I believe I have been manipulated, taken advantage of, and stolen from.

I am also concerned that my signature is often obtained on documents that I do not fully understand, and /or sign documents that I am not aware are included in a stack of papers you may have me sign. I am not totally convinced that my signature on documents has always been original.

In an attempt to assist you get on your feet, I want to make you an offer. This offer is contingent upon you staying in Tulsa. You are not welcome in my home Nancy. I will provide for you a stipend of \$1200 a month for six months. This should be enough to maintain your household budget while you find employment in Tulsa. It could also provide assistance as you try to start your business with the yard art idea you have. If you move to Albuquerque, this stipend with cease immediately.

Nancy, my decision will not change. I do not want you living with me. Please do not make it uncomfortable for either of us by making personal pleas or coming to my house to confront me personally. I will not change my mind. I am putting legal paperwork in place to prevent you from entering my home temporarily or permanently. I have advised all my hired professionals and account representatives to consider any communication from you to be unauthorized by me. I have notified these people as well that if they choose to continue communications with you, I will not pay for any time spent with you.

Please accept this stipend offer as an exercise in good will and understand that it will stop if you choose to not abide by my stated wishes.

Love, Dad
